### **Stepping Stones Together Overview**

Stepping Stones Together was designed for parents to help their child with beginning reading skills. This unique and easy-to-use program supplies parents with a *personalized* online and printable reading curriculum to use with their child. Stepping Stones Together utilizes research-proven methods to encourage early reading success. Additionally, the program fosters a positive correlation between parental involvement and a child's academic success.

Stepping Stones Together empowers parents with the tools and knowledge needed to instill a lifetime foundation of love and commitment to reading, while also creating an invaluable bond with their child.

#### *Additional Program Information*

- Parents should see a noticeable improvement in their child's reading skills if they commit 15-20 minutes daily to completing all the suggested program requirements.
- Children who benefit from this program are usually between the ages of 3-7 years old.
- Parent and child teams choose pre-selected stories from their personalized start page and go through a daily series of fun reading and writing exercises to improve reading skills.
- Additional games are offered within the program to further increase reading skills that the child may play at any given time.
- Reminders/E-alerts are sent to parents when Stepping Stones Together activities have slowed.

- The Stepping Stones Together program costs only \$19.99 for 90 days or \$39.99 for an entire year.
- Stepping Stones Together will donate a portion of their proceeds directly to the Myeloma Institute, which will help support the institutes' efforts to advance the treatment and potential cure of Multiple Myeloma, a type of cancer affecting more than 50,000 Americans.
